1. class - classification

13.11.2009

1. class - movement

1. class – swimming and sinking

15.01.2010

2. class - classification

		○		○	
×					

2. class - movement

2.class- measuring

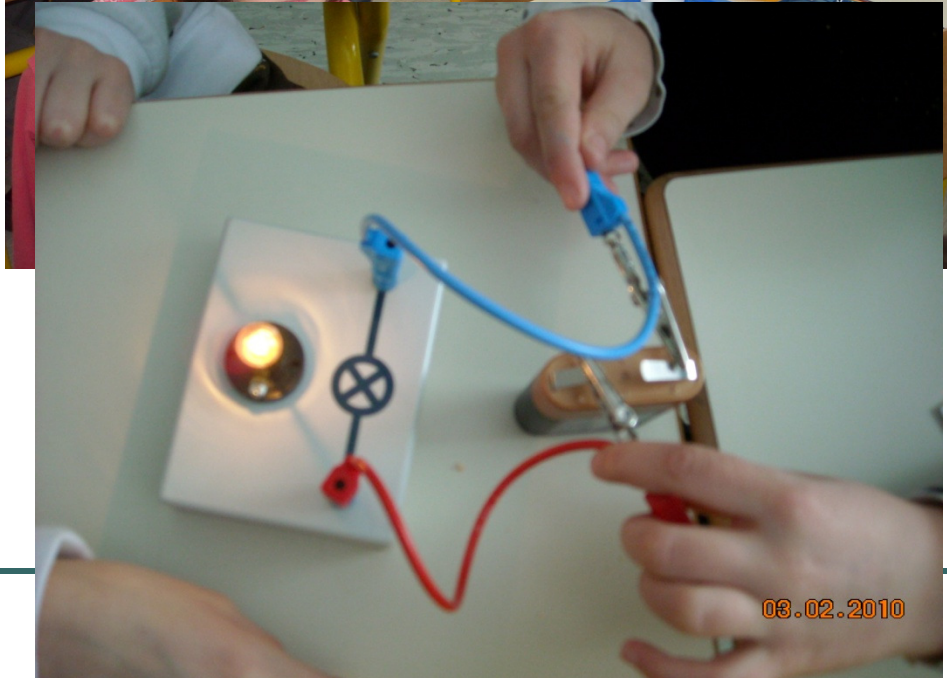

3. class - light and shadow

3. class - measuring

4. class- electricity

4. class - separation

Develops experimental skills

Pupils have:

- observed,
- counted,
- compared,
- predicted,
- experimented
- used standard and unstandard units,
- checked out their own predictions,
- planned simple experiments,
- linked causes with consequences.

It isn't important, how slowly you go, it is important, that you don't stop.
