Montrouge, June 4, jeudi 4 juin 2009

To : Mr. Dan SPOREA
National Institute for Laser, Plasma and Radiation Physics
Bucharest
ROMANIA

Dear Mr Sporea :

It is my pleasure to confirm to you that Mr. Alain Chomat and Mr. Jean-François Rodes, members of the *La main à la pâte* French national program for inquiry-based science education, will deliver a course in Romania from June 9 to 11, 2009 on the inquiry-based approach for science teaching in primary school, according to the *La main à la pâte* and Pollen project principles. Mr Chomat and Mr Rodes have both a background in science teaching and teachers training and are highly experienced trainers.

This training is taking place following our acceptance of having Romania as a Pollen observer member through your initiative for science education.

Kinds personal regards,

<http://www.inrp.fr/lamap>

Raynald Belay
Deputy director
