

**“S.O.S. EARTH” – Multilateral Comenius School Partnership
2008-2010**

No: 2008-1-RO1-COM06-000141

First Year in Progress “The Light, Light Pollution, Modalities of Reduction it”

Involved Partners:

1. Transnational Coordinating Institution: “Mihai Bravu” Secondary School of Construction and Assembly, Bucharest, Romania - associate with National Institute for Lasers, Plasma and Radiations Physics, Bucharest
2. Lincoln Christ’s Hospital School, Lincolnshire, East Midlands, Great Britain
3. Saarnilaakson Koulu, Upper Comprehensive School, Espoon Kaupunki, Finland
4. Escola Profissional Gustave Eiffel, Vocational Secondary School, Entrocamento, Centro Medio Tejo, Portugal

The first Project meeting: 21-22 November 2008

Project week 29th March – 4th April 2009

1st April visit to the National Institute of Lasers, Plasma and Radiations Physics

Summary of the planned Partnership

The Earth is in trouble and the survival of our species is in doubt. This project links Partner schools and Associate Institutions interested in the impact of human behaviour on the planet, and how we might be able to rescue the situation. It concentrates on scientific aspects of climate change and some precise areas in which how we might be able to reduce energy consumption and global warming. There is an emphasis on science and technology, theoretical aspects and practical solutions.

The focus will be on Light and Light pollution in year one and then on Global warming in year two.
